

TOWN HALL MEETING

Cleaning the air that we breathe...

On Thursday, July 27, 2006, the South Coast Air Quality Management District (AQMD) and the City of Beaumont will be hosting a town hall meeting on air quality. We invite you to attend. The meeting will include:

- A presentation on local air quality and how it affects your health
- A question and answer period during which residents can share concerns about local air quality issues with AQMD and City of Beaumont officials
- Discussion of proposed wastewater treatment plant upgrades
- Information on what residents can do to help clean up the air that we breathe

The AQMD is the government agency responsible for protecting you from air pollution – and we believe that everyone should have equal protection. Please join us for this meeting.
